

Time: Tuesday 14th February, 2023 12:50-13:40
Place: Room N-220 (Science Hall)
Title: Nonlinear waves are all around us: a mathematician's
perspective
Speaker: Professor Philippe G. LeFloch (Director of Research,
Sorbonne University and CNRS, www.philippelefloch.org)

This lecture will enormously encourage the students of all natural sciences majors and students of any major who are interested in appreciating the great role of mathematics in the understanding of many natural phenomena. Specialist mathematical knowledge and ability is not required.

この講義では、自然科学メジャーの学生および自然科学に関心のある学生を非常に興味をかき立てることを目的として、数学の専門的な道具を用いることなく、多くの自然現象を理解するための数学の道具の重要性を説明する

Anybody, especially students, is welcome. You can bring in your snacks or meals.
