1) Your Family Information

- Under family members, fill in all members up to second-degree relatives, including those who are independent or living separately. For grandparents, include only those who live with you.
- If you have siblings who are currently in school, please indicate the type of school they attend and their current grade.

2) Household Income

Please fill in the annual income column by referring to the following documents:

- Withholding tax slip issued by your employer: "Amount Paid"
- Income certificate issued by a municipal office: "Total Income (Salary Income)"
- Tax return form: "Total Income Amount"

You may be asked to submit supporting documents such as a withholding tax slip if necessary.

9. Screening of Dormitory Residency

As the number of applicants typically exceeds the number of available spaces, not all applicants can be admitted.

Selection will be conducted based on a comprehensive review of the information provided in the application, including reasons for applying, family composition, and household income.

Applicants are expected to understand the philosophy of ICU dormitories and demonstrate a willingness to actively participate in dormitory life.

10. Medical Examination

All residents are required to undergo the annual medical examination conducted by the university each April.

The medical examination is regulated by the School Health and Safety Act and it is an important opportunity to support students' health and well-being during dormitory life.

Failure to take the examination may result in the cancellation of dormitory residency.

11. Vaccination

Before moving into the dormitory, please confirm your vaccination history for the following diseases:

- Measles
- Rubella
- Mumps
- Varicella (chickenpox)

If you have not received two doses for each vaccine, please obtain additional vaccinations at a medical institution so that you have received a total of two doses.

Vaccination is essential in dormitory life to prevent infectious diseases.

Please take responsibility for protecting your own health and preventing the spread of infections on campus.

- ICU considers completion of these vaccinations as a basic requirement for communal living.
- These diseases are designated as "infectious diseases to be prevented at school" under the School Health and Safety Act.
- Students who contract them are prohibited from attending classes until cleared by a doctor.
- Submission of vaccination certificates is not required; however, each student is responsible for confirming their own vaccination history.
- If you are unsure about your vaccination history, number of doses, or antibody status, please consult a medical institution.

- d) For the dormitory entrance fee and dormitory fees, please use the university's prescribed payment form to be provided after moving into the dormitory, and make payment at the Yucho bank. Please also transfer the dormitory fee from the post office in the same way, using the payment slip, for the following term for subsequent terms in the same manner using the payment slip.
- e) If you wish to make an overseas remittance, the necessary information will be provided when the payment slips for domestic transfers are distributed.

*Each dormitory collects a small amount of money to purchase items for shared use.

*Any entrance fee or dormitory fees you have paid will not be refunded to you, regardless of your reason for moving out from the dormitory.

7) Dormitory Supervisors

There are live-in dormitory supervisors to oversee the dormitory's management and operations as well as the mental and physical well-being of its residents. They live on campus to cope with emergency situations.
