The number of dormitory applicants is larger than the number of vacancies. The dormitory applications should go through competitive procedures. The dormitory applicants must understand and sympathize with the philosophy of the ICU dormitories. They must show enthusiasm for participation and cooperation in dormitory life.

Check your vaccination history (measles, rubella/German measles, mumps, varicella /chicken pox) once more before you move into your dormitory. If you have not been vaccinated twice against each of these acute contagious diseases, please receive additional vaccinations at a healthcare facility so that the total number of vaccinations for each disease becomes two.

To live in the dormitories, receiving vaccinations is essential. Please make sure to check your vaccination history and receive vaccinations to protect yourself against contagious diseases and to prevent mass infections or the spread of infections on campus.

* Vaccination with the COVID-19 vaccine is also recommended.

* ICU considers receiving the above vaccinations as the rule for communal living on campus.

* These contagious diseases are designated as "contagious diseases that should be prevented by educational institutions" by the School Health and Safety Law (unofficial translation). If you contract any of these diseases, this law forbids you from attending ICU until you receive medical clearance from a doctor.
