Application Procedures of the on-campus dormitories for current students:

If you want to apply for the dormitory, please first read the following precautions regarding the novel coronavirus (COVID-19). After that, please read the following information about the dormitory and the screening process, and apply for admission by the deadline.

Please apply by the deadline on the condition that you pledge to live in the dormitory in accordance with the dormitory regulations, accept university's guidance in daily living, agree with and abide by the dormitory “Guideline for the Prevention of COVID-19 Infections in On-campus Dormitories” when you are given approval to reside in the dormitory.

◆ Notes about the novel coronavirus (COVID-19)

Due to the global outbreak of COVID-19, different rules for living in the dormitories are required than usual. Those who wish to live in the dormitory should consider the following risks before applying.

➢ If a resident in the dormitory is found to be infected, we may close the whole floor or dormitory. In addition, if the infection situation in Tokyo worsens significantly, we may request all the dormitory residents to move out temporarily.

➢ The resident confirmed to be positive will be asked to move out of the dormitory temporarily and hospitalized or asked to move to a hotel designated by the capital for medical treatment under the guidance of the public health center, medical institutions, etc. (depending on the situation of coronavirus in Japan and Tokyo, different measures may be taken in the future depending on the public health center, medical institution, etc.). If the public health center determines that the dormitory resident is a “dense contact person,” the resident will be asked to get tested and move from the dormitory according to the guidance of the public health center and university.

➢ When a declaration of emergency or a request/notification by an administrative agency is issued: Please note that not only when somebody is infected or have symptoms with new coronavirus at our university, but also when the infection situation in Tokyo has significantly deteriorated, when a new emergency situation is declared or a request/notification issued by the government agency in the future, depending on the content, you may not be able to enter the dormitory, or you may be asked to leave the dormitory temporarily in order to ensure the health and safety of the dormitory residents, even if you have entered the dormitory.

<Reference>
Guidelines for Activities to Prevent the Spread of COVID-19 (BCP: Business Continuity Plan)

➢ In the dormitory, please follow the rules and guidelines to be set and avoid "The Three Cs" in closed spaces (poorly ventilated spaces), crowded places (where many people are crowded), close-contact settings (conversations and joint actions within reach of each other). Ventilate your room, wash your hands, disinfect your hands and fingers, wear a mask and take your temperature and keep yourself in control of your physical condition

➢ Dormitory Rooms and Common Areas: Most of the rooms in the dormitory are designed for twin rooms, and there is a possibility that you will move into a shared room. In addition, toilets, kitchens, living rooms, etc. are also shared. The common areas will be cleaned and disinfected by a professional company on a regular basis.
Due to the group living environment of dormitory students from all over the world, it is difficult to say that there is no risk of infection. If you are concerned about that, please consider living in a residence other than a dormitory.

Items on the application such as one's reason for wishing to live in the dormitory, the composition of one's family, and household finances will be taken into consideration.
The dormitory applicants must understand and sympathize with the philosophy of the ICU dormitories. They must show enthusiasm for participation and cooperation in dormitory life.

6. Notification of Results
The results will be announced by email on Friday, October 29.

7. Medical Examination
A medical examination offered on-site in April should be taken and those who fail to take the examination may lose their right to reside in the dormitory.

8. Vaccination
Check your vaccination history (measles, rubella/German measles, mumps, varicella/chicken pox) once more before you move into your dormitory. If you have not been vaccinated twice against each of these acute contagious diseases, please receive additional vaccinations at a healthcare facility so that the total number of vaccinations for each disease becomes two.
To live in the dormitories, receiving vaccinations is essential. Please make sure to check your vaccination history and receive vaccinations to protect yourself against contagious diseases and to prevent mass infections or the spread of infections on campus.
* ICU considers receiving the above vaccinations as the rule for communal living on campus.
* These contagious diseases are designated as "contagious diseases that should be prevented by educational institutions" by the School Health and Safety Law (unofficial translation). If you contract any of these diseases, this law forbids you from attending ICU until you receive medical clearance from a doctor.
